	Quiet: 80 head Slightly Stirry: 10 head These steers were very good to handle in all parts of yards and crush, some steers did react negatively when being caught in the crush, this is not unusual and was to be expected after being run through the race and crush twice. They settled back to the mob quickly and it is evident that these steers have had a lot of handling. Bikes , Dogs , Vehicles	Quiet: 85 head Slightly Stirry: 5 head	Temperament not assessed in Paddock
