Assessor Comments	A quality line of Vendor bred Charolais and Charolais British Cross weaned Heifers. A very nice line of Euro and Euro British cross heifers that show plenty of style and growth for age attributes at the age of 7 to 8 months old that Averaged 281 kg full at assessment. Heifer weaners were bred out of very large framed cows, Vendor spares no expense when purchasing replacement sires from Palgrove, Ascot and P.J Charolais studs with white and red factor bulls being used. Heifers present in fresh forward condition and have done considerable very well given the dry conditions. Heifers are very feminine types and would make great future breeders or excellent backgrounders for the feeder market or finish on grass to suit the domestic or export grass markets.
