	Very sensible heifers that were easy to handle and worked on the scales with no fuss.					
Assessor Comments	5 composite heifers that would normally be kept for breeders or to much heavier slaughter weights. Most of these heifers are out of Red factor Charolais cows. 1 Black baldy heifer. These heifers in the past have met Supermarket specs and export weights. Whilst only young and in store condition - they show plenty of shape and growth. They are strong and have healthy clean coats. Sired by Pentire Angus Stud Bulls. They display good bone, length and plenty of frame to work with. They would be perfect to put away until the spring, and they should thrive given the opportunity - either as future breeders or slaughter/trade heifers. Vendor has 2 other lots of heifers in same sale. Agent also has another 48 Angus heifers located close by in same sale.
