Notable Traits	Traits		
	3 Head Active pink eye - treated		
	3 Head Old pink eye scarring		
Assessor Comments	A smart line of EU Hereford cross heifers. Widden stud have been breeding these cattle since early settlement and would normally take these cattle out to heavy kill weights. 3 heifers were treated and patched for pink eye at assessment. Plenty of hybrid vigour to be gained from these cattle and would power ahead on feed. Only selling due to the dry season. Buyers please note the vendor has another lot in this same sale.
