Temperament	Yards	Crush	Paddock
	Quiet: 92 head Slightly Stirry: 8 head	Quiet: 92 head Slightly Stirry: 8 head	Temperament not assessed in Paddock
	The Steers did rush a little when first put in the yards but to be fair we just ran them in, straight off crop and started assessing. They settled well after being let out of the crush, the videos were taken after the assessment so that will give you a good indication . A few played up in the crush but nothing unusual there, overall well handled cattle.		
Handled With	Bikes , Dogs , Horses , On foot		
Notable Traits	Traits 2 Head Old pink eye scar in one eye. 2 Head Small white patch under the flank.		
Assessor Comments	100 Top quality Landfall blood steers that have the length and conformation the Landfall bloodlines are renowned for. The steers are going forward and will bounce away on grain or grass. This is the first draft of the McArthur family steers, the weight is back on previous years due to a difficult season. Steers have been weaned since February when they were yard weaned and educated. They have had all the animal health treatments including 3 doses of 5in1. Note this is the lead of 300 steers.		
Assessor	Anthony Atkinson (Level 1 Accredited) Phone: 0412 777 700
