Handled With	Small % of animals with a bit of "run" in their step during the assessment. It is to be noted that they had all come off a reasonably fresh paddock of feed & also being assessed in set of yards with concrete with a slippery base didn't help their case. Increased handling & time will quickly improve their temperament in my opinion.

Assessor Comments	Autumn Moon Pty Ltd are offering a tremendous run of their Red Angus animals for sale, of which this assessment represents the surplus to requirements of their 2025 Spring born Heifers. Sired by Hicks Red Angus bulls & out of Ex. Stud & Commercially based Red Angus females provides you an article that has some of the best genetics running through their veins. Ideal animals that will require minimal maintenance throughout the following months ahead & transform quickly during the spring period. I believe these animals would be perfect if you are looking to tuck some little heifers away to grow into a domestic feeder weight later in the year
