Assessor Comments	A good to very good line of yard weaned vendor bred Angus x Angus steers. With medium to large frame they suit to background to domestic and then export feeder weights and then finish for a range of premium grain or grass markets. The steers are GRASS ELIGIBLE, never having been fed grain or treated with antibiotics. Live weight range at assessment 234-355kg after an overnight dry curfew off their mothers. Note the sisters of these steers are in this sale. They are located just 5km north of Goondiwindi on a main highway and other lots are listed in this sale nearby to assist with trucking logistics. Ideal backgrounder steers.
