Assessor	Handled With Bikes , Vehicles		
Assessor Comments	A good to very good line of yard weaned vendor bred Angus x Angus heifers. With predominantly medium to large frame, they would suit to background to heavy domestic feeder weights and then finish for a range of premium grain or grass markets. No heifers are being retained this year and the top 60% have the potential to go through to very good quality future breeders. Note these heifers are GRASS ELIGIBLE, never having been fed grain or treated with antibiotics. The heifers had a LWR of 205 - 340 kg at assessment after an overnight dry curfew off their mothers. Please note they are located just 5km north of Goondiwindi on a main highway and other lots are listed in this sale nearby to assist with trucking logistics.
