	Heifers were very easy to handle throughout the yards. Were very easy to draft with one heifer noted to be slightly quick through the pound. One heifer became slightly agitated in the crush but settled quickly back into the mob. Overall very good cattle to handle.					
Handled With	Bikes , Dogs , On foot , Vehicles					
Notable Traits	Traits 6 Head White under belly - behind navel.					
Assessor Comments	Quality Angus x Angus weaned heifers carrying quality genetics including Trio, Wattletop, Gates and Booroomooka. Would make a good edition as future breeders or equally take through to feeder or domestic kill markets. No heifer retained and are weighed into a neat line weighing between 204kg - 304kg. Heifers are running on lighter New England country and are showing good weight for age. These heifers would perform well in many breeding operations as well as any high end Angus market. Great opportunity to secure well bred, easily handled heifers with plenty of upside with the right feed.
