Notable Traits	Traits 2 Head Old pink eye scarring in one eye		
Assessor Comments	*** HERD DISPERSAL *** The last chance to secure some of the waterfall way Grazing herd, this brings to end of over 40 years of breeding that was started by Quentin Braund - Calpet Pty Ltd. An extremely well bred line of front paddock Angus weaner heifers are on offer that present in great fresh condition and are showing great weight for age characteristics. Heifers are soft easy doing types of females that ooze femininity, stretch and are well balanced that will make for perfect future breeders. Heifers have been weaned now for two months and avg 296 kg full at assessment, No better opportunity presents to buy quality front paddock future breeding females packed with Quality genetics.
