Temperament	Yards	Crush	Paddock
	Quiet: 106 head Slightly Stirry: 2 head	Quiet: 105 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
	Heifers handled well throughout the assessment process. Heifers flowed/ processed through back yards, force & weigh station easily. 3 heifers became agitated in weigh station. Heifers undergoing the weaning process wanted to run in back yards when released, but soon settling in our presence & were comfortable to be maneuvered on foot for photos & videos without issue. (See media).		
Handled With	Bikes , Dogs , Vehicles		
Notable Traits	Traits 3 Head White Udder/underbelly		
Assessor Comments	108 - EU Accredited - Good Quality Vendor Bred Angus heifers presenting in healthy forward store to fresh condition. Heifers are NSM - being bred from a reputable, New England self replacing Angus cow herd based on Pine Creek Angus Bloodlines. Heifers were weaned at assesment, being retained in weaning yards until delivery. Temperament of the heifers is a feature, although heifers are transitioning to weaned, heifers handled sensibly in both force yards & back yards, testament to their management practices. Sale represents an annual production sale of heifer weaners, although due to seasonal conditions a number of these heifers would traditionally be retained for breeding purposes, but need to be offloaded. This presents an opportunity to secure a genuine line of Angus females to take on, join & retain as future breeders or would be considered suitable replacements in the most discerning commercial Angus programs either breeding, backgrounding or feedlotting operations.
