Good	44%	Store	80%

Temperament	Yards	Crush	Paddock
	Quiet: 88 head	Quiet: 83 head Slightly Stirry: 5 head	Temperament not assessed in Paddock
	Generally very good to handle in and through the yards. Five steers were moderately agitated in the crush. They simply would not fully settle and exited quickly. All settled quickly when back in the mob and were good to move and manage when taking photos and videos. In paddocks they are trained to single wire electric fences.		
Handled With	Bikes		
Notable Traits	Traits 1 Head Moderate blue eye x one eye 3 Head Slight Blue eye x one eye 4 Head White underline behind the pizzle		
Assessor Comments	A good to very good quality line of vendor bred EU accredited weaned steers. With medium to large frame they suit to background to export feeder weights and then crop of feedlot finish for a range of high quality markets. Please note that the steers were assessed at two separate properties on the same day with the lighter Angus steers moved to Gossanbar while the heavier steers are at Angle Camp. These steers have been fully vaccinated with two Bovilis MH + IBR shots. They are by very good quality Bowen or Booroomooka Angus bulls and are normally taken through to the high value EU Angus feeder market. With a tight LWR of 250 - 350 kg they are ideal background steers.
