Assessor Comments	A good to very good quality line of vendor bred EU accredited weaned steers. With medium to large frame they suit to background to export feeder weights and then crop of feedlot finish for a range of high quality markets. These are the crossbred steers that are mostly by Angus bulls over crossbred or Charolais cows. Many of the Angus x steers only have a little white on the pizzle. They have been fully vaccinated with two Bovillus MH + IBR shots and are normally taken through to the high value EU feeder market. They are ideal background steers that will go ahead on good feed.
