Handled With	Bikes , Dogs , On foot , Vehicles				
Notable Traits	Traits				
	6 Head Navel, indication of Bos Indicus				
Assessor Comments	An excellent quality line of young heifers being sold due to sale of the well known "Braemar" property. An Angus and Composite EU accredited herd lately using mostly Angus bulls as sires, these heifers would make excellent breeders as Braemar has always had a focus on fertility and doing ability. They were treated with Bovilis MH + IBR on the day of assessment and would also suit to take directly on to grain. Would also suit a grass finisher, they are grass market eligible - vendor can supply a declaration on request. All of the heifers presented today were treated with Juramate Prostaglandin as a precaution. Note other lots this sale same vendor, the balance of the 2025 drop steers and heifers. NOTE: Delivery outside of the stated period will also be available from mid morning Tuesday 28th to pm Wednesday 29th to assist with trucking.				
Assessor	Danny Wilkie (Level 1 Accredited)
