| Assessor Comments                     | A high quality line of Angus steers that are doing extremely over 1kg/day on a dry tropical pasture crop. A regretful sale from the vendor as they have not received sowing rain for fodder crops. Steers are up to date with all health treatments and are ready to really perform. A neat B double for trucking purposes. Please note there is the very odd scar in a single eye - NCD.      |                                            |                                     |
