Assessor Comments

Buyers, This is a great opportunity to purchase genuine replacement heifers that have had no heifers retained. This line of well bred weaned Angus heifers show great breed characteristics with softness, volume and thickness. Heifers have good length of body with bone and depth of flank. These heifers are very soft smooth easy doing types with femininity that would make fantastic future breeders. Heifers are bred out of large frame Angus cows by top quality Booroomooka & Clunie Range stud Angus sires. Heifers were very good to handle through yards and will be handled right up until delivery. Heifers are Grass only eligible & Antibiotic free. Note very odd heifer has small white patch underneath. Vendor has steer line in same sale.
