Notable Traits	Traits 4 Head Old pink eye scarring				
Assessor Comments	3 Decks - 102 Crossbred Steers weighed from 261kg to 438kg to average 347.6kg at delivery. A great opportunity presents itself for buyers to purchase steers with plenty of frame and quality. These steers possess compensatory weight gain to be had on either grass or crop. The continuing dry season means these steers are being offloaded earlier than usual. Don't miss your chance to purchase quiet natured cattle that have had plenty of handling and will settle into their new environment very well.
