	Station bred heifers that are predominately handled on horses. Heifers are respectful but tend to move as a mob when being handled on foot. No malice observed.			
Handled With	Bikes , Dogs , Horses , Vehicles			
Assessor Comments	An even line of Angus x Angus feeder heifers that were drafted 350 kg liveweight and over at assessment. Heifers stand on sound feet and legs, and have been Preg Tested empty for buyer confidence. Heifers are considered suitable to feed on to high quality carcass grades maturing to mostly C butt shape. Alternatively are considered to possess the breed quality to be considered as future breeders in most commercial operations. One heifer has a white spot above left eye, another is a blue roan. 9 heifers were noted with slight cloudy eyes on a single side, not considered detrimental. Same vendor has a further 25 heifers in the same sale, which may assist with transport.
