Cattle have had limited handling since weaning however they behaved well. Would benefit from further education.

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: **EU, Grassfed and Antibiotic Free** Weaned Speckle Park X Angus steers. This is a very nice line of Steers 8/9 months of age, they stand on great bone, with shape and length. These steers are bred to perform on grass and as well in the feed pen. The "Gaudron" cattle do not often come on the market as they traditionally grass finish these cattle for high end antibiotic free markets. However, with a tightening season these cattle are being offered to the public. They have been weaned for 10 days and have not missed a beat. They come highly recommended. Vendor also has 69 EU Angus Steer Brothers & 44 EU Angus heifers in the same sale.
