Assessor Comments	**EU, Grassfed and Antibiotic Free** Weaned Angus heifers. This is a very nice line of Angus heifers 8/9 months of age, they stand on great bone, with shape and length. These heifers are bred to perform on grass and as well in the feed pen. They are well suited as replacements as the tail has been taken out. The "Gaudron" cattle do not often come on the market as they traditionally grass finish these cattle for high end antibiotic free markets. However, with a tightening season these cattle are being offered to the public. They have been weaned for 10 days and have not missed a beat. They come highly recommended. Vendor also has 21 EU Speckle Steer Brothers & 69 EU Angus steers in the same sale.
