Slightly Stirry: 15 head
Stirry: 2 head

Paddock

The steers had a tendency to run in the yards , nothing was stirry more the result of being put together from three properties to start yard weaning. The odd one played up in the crush , nothing unusual there. They settled after assessing and will be in the yards for another 3 days.

Handled With

Bikes , Horses , On foot , Vehicles

Notable Traits

Traits

2 Head Small amount of pink eye in one eye, treated at assessment

Assessor Comments

Tidy line of well bred weaned Angus Steers with the frame and conformation to put on a lot of weight. Steers that will have the attributes to perform on grain or grass. They are from one of the oldest Angus herds in this district, the season has been tough hence they do not have the weight of previous years. Due to a protracted calving the weight variance is age not quality related They will only go forward from here, a large tail has been taken out. Vendor has a B double permit to the yards if a B double is required. There is another lot of Heifers from a local district breeder as well as a lot of Heifers from this vendor also in this sale.
