Assessor Comments	A B-Double load of EU yearling heifers off the renowned Bolaro Station. Bolaro have been using Rennylea Angus genetics for 10 years with a focus on growth and IMF, targeting Rangers Valley feedlot and other repeat buyers. These are well bred yearling heifers presenting in store condition but will respond well to crop and feeders if given the chance. Heifers are EU & MSA. This lot of heifers have been run hard recently due to the vendor trying to preserve feed for their older cows. Were joined but have preg tested empty due to harsh season over last Spring/Summer. Please note: 137 Weaner Steers in todays sale also.
