	Weaners were a pleasure to handle working well through the yard and race with only small % becoming slightly agitated in crush but settled quickly once being returned to mob. Steers have had an extensive weaning programme in yards and tailing out in pdk and it is a credit to the Vendors the temperament of these steers.

Assessor Comments	Buyers a great opportunity to secure Bdouble of VGQ No 6 EU weaned steers out of Large framed Xbred Cows by Moongool Simmental , Gidyea Brangus and Ultrablack and Valeravale Droughtmaster sires, they show great length, bone and softness with tremendous weight for age and would be Ideal to take through to Lucrative HQB EU Slaughter weights or Heavy EU feeders. All the hard work has been done with extensive yard weaning and educating in paddock so steers are ready to power ahead on grass or oats. The Biddenham cattle have a very good reputation and always sell to repeat buyers when normally sold at heavier weights. Please note some show some very small weaner horn due to dehorning miss at branding, one has blight scarring in one eye, & 1 has a needle lump with neither considered detrimental . These steers will be drafted on a run out the gate basis into a 3 decks & a 2 deck line. Vendor also has 4 decks of sisters in the same sale.
