Steers well through the race and crush, showed normal weaning tendencies in the backyard/crush. Steers were exceptionally good to handle considering only very recently coming off their mothers and a truck trip. A few steers happy to avoid close proximity and quick to move away but in no way agressive.

Assessor Comments	BUYERS, on offer, 60 very well bred Simmental and Braford infused weaners. Steers are currently receiving full weaning program and are expected to respond quickly given the opportunity. Steers show very good growth for age. The Kenny family hard is based on leading genetics from Harriet Valley Braford bred females and have spared no expense purchasing leading genetics from Woonallee Simmentals for the cross breeding program. Buyers, 60 steers that will excel in the heavy feeder program or grass fed bullock job, worth your consideration. NOTE - STEERS WILL BE OFFERED CLEAR OF TICKS AT NO FURTHER EXPENSE TO THE BUYER. VENDOR ALSO HAS 60 HEIFERS IN THE SAME AUCTION THIS FRIDAY 29/05/2026.
