Assessor Comments

Buyers - We offer a lovely 3 deck line of vendor bred, HGP free, Brahman/Brahman cross steers. These steers are all bred from an exceptional cow herd selected on performance, fertility and adaptability. All steers weighed from 305 - 432kg at assessment and dentition consisting of 91hd x milk, 5hd x 2tooth. Steers have been running on dried off native pastures and showing good frame for age and are ready to power ahead given the nutritional opportunity. Cattle are very well educated and flowed through yards well during assessment, left the yards calmly and walked out well during videoing in the paddock. Please note cattle are located inside the tick zone - Vendor will offer clear of the dip to clean buyers and will negotiate agreed delivery point for going back to tick country.
