Comment on Fat Score 1 Cattle

Steers are in strong store condition.

Vendor Bred

Yes

Lifetime Traceable

100% of cattle in this lot are Lifetime Traceable

Breeding Comments

The Grove SH bulls have been used exclusively for the past 17 years over Shorthorn cows. The black weaners come from some SH/AA x cows from Angus many generations ago.

Grazing Conditions

Dry native and improved pasture. They have been intermittently paddock fed oaten hay over the past 6 weeks.
Returned same

Burr/Seed in Coat

No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status

The owner declares that the cattle have not been treated with HGP at any period of their lives

Temperament	<table><tr><th>Yards</th><th>Crush</th><th>Paddock</th></tr><tr><td>Quiet: 93 head Slightly Stirry: 5 head</td><td>Quiet: 87 head Slightly Stirry: 11 head</td><td>Temperament not assessed in Paddock</td></tr></table> Steers were good to handle in the yards and crush. They had been weighed before and were generally calm getting onto the weigh platform. Eleven head would not settle completely or exited quickly. All settled well and remained quiet when being photographed with just a handful wanting to lead out quickly while being videoed. 3 Head Slight Blue Eye x one eye					

Assessor Comments	A good to very good quality line of Shorthorn yard weaned steers. They are vendor bred and are from a herd which have been on The Grove Shorthorn genetics from for at least 17 years. This is the full drop of this years weaner steers with a small tail removed at assessment. The 8% fair quality steers just lacked little muscling but were soft in the coat and will grow on with access to good feed. As a mob they are mostly medium to large framed and are normally taken through to the top end of export feeder weights and then sold to local feedlots. They have not had access to grain or cotton seed and are PCAS eliible. They would suit to either take directly onto crop or to grass finish for a range of high quality slaughter markets. They are located approx 15km off the Gore Hwy north east of Goondiwindi. Please note that the cattle are on short dry feed and if there is substantial rain post assessing there is the potential for them to start chasing short green feed - we would ask buyers to consider this and attempt a prompt load day.
Assessor	Andrew Wilkie (Level 1 Accredited)

Delivery Period	01/06/2026 to 05/06/2026 (5 days)
Delivery Point	'Mutooroo' 1262 Tenomby Rd GOONDIWINDI QLD 4390 Lat: -28.5424479 / Lng: 150.3012655
Ticks	Cattle are not in a tick infested area.
