Comment on Fat Score 1 Cattle	Heifers are in strong store condition.
Vendor Bred	Yes
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	The Grove SH bulls have been used exclusively for the past 17 years over Shorthorn cows. The black weaners come from some SH/AA x cows from Angus many generations ago.
Grazing Conditions	Heifers have been on dry native and improved pasture. They have been intermittenly paddock fed oaten hay over the past 6 weeks. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Health Treatments	Vaccinated 18/10/2025 7 in 1 First Dose
Joining Details	Not Station Mated
Any Access To Bulls	To vendor's best knowledge, this lot has had no access to bulls or stags.

Temperament

Yards	Crush	Paddock
Quiet: 94 head Slightly Stirry: 8 head	Quiet: 81 head Slightly Stirry: 20 head Stirry: 1 head	Temperament not assessed in Paddock

Heifers were ok to good to handle in the yards and crush. They had never been over the weigh platform before and tended to balk before getting on. 20 head would then not settle completely and continued to fidget on the scales and often exited quickly. One heifer was highly agiated on the scales. Most settled well and remained quiet when being photographed with just a handful wanting to lead out quickly while being videoed. Nothing aggressive noted.

Handled With Bikes , Vehicles

Notable Traits

	Traits
3 Head	Healing ring worm on face or neck
3 Head	Moderate Blue Spot in Eye x one eye
3 Head	Slight Blue Eye x one eye

Assessor Comments A good to very good quality line of Shorthorn yard weaned heifers. These heifers are vendor bred and are from a herd which have been on The Grove Shorthorn genetics from for at least 17 years. This is the full drop of this years weaner heifers with a small tail removed at assessment. The top 40% have the potential to make good quality future breeders. The heifers are mostly medium to large framed heifers, and had a LWR of 169 - 357 kg after an overnight (15 hr) wet curfew in the yards. Heifers have also not had access to grain or cotton seed and are PCAS eliible. They would suit to either take directly onto crop or to grass finish for a range of high quality slaughter markets. Heifers are located approx 15km off the Gore Hwy north east of Goondiwindi. Please note that the cattle are on short dry feed and if there is substantial rain post assessing there is the potential for them to start chasing short green feed - we would ask buyers to consider this and attempt a prompt load day.

Assessor **Andrew Wilkie (Level 1 Accredited)**

Delivery Period 01/06/2026 to 05/06/2026 (5 days)

Delivery Point 'Mutooroo' 1262 Tenomby Rd
