Assessor Comments	A line good (80%) to very good (20%) quality vendor-bred Speckle Park and Speckle Park Angus Cross weaner heifers. With mix of some smaller to medium and large frames these heifers suit to take to heavy domestic weights or light export feeder weights and then finish for a range of grass or grain fed markets. They are Grasslands accredited and have not had access to grain. They were generally good to work with in the yards except for one heifer who would move away from pressure - not aggressive. Note same vendor has a larger line of steers, the brothers to these heifers, in this week's sale also. These are located within 5km of the Newell Hwy to work in with any north-south transport.
