Assessor Comments A Commercial line of one brand, vendor bred, weaner heifers. The vendor has a strict selection process when choosing sires and retaining females. Selecting sires with correct IMF traits has been a must, to ensure marbling in future offspring, heifers have been growing out well considering the conditions. Huge compensatory gain to be had, heifers will perform well if given the opportunity. Please note some heifers show slight navel, appears to be genetic throw back from stud angus bulls used in the past on the maternal side. Don't miss the opportunity to purchases the lead draft out of the entire 2025 drop, no heifers have been retained. Buy with confidences.
