Assessor Comments	Top quality weaned Angus steers from one of the better herds in this district. This is the lead draft of 250 steers, they have the frame and conformation to perform on grain or grass. The Steers have had all the animal health treatments including the first Bovillis vaccination. They present in fresh condition and have had no set backs. This herd has undergone a heavy culling regime in the last few years and that shows through . Note the 100 should fit on a b double, we will hold back a few of the lighter end if there is any doubt.
