Assessor Comments An outstanding line of EU accredited Angus steers off 'Koomalla'. TOPS OF THE DROP!! It's the first line of spring drop calves to be offered by the Hiscock family after changing their calving program. This season's drop of calves are sired by the elusive Mandayen Reebok R442 & Mandayen S408. Steers were yard weaned March 16th and received the following health treatments; Multi Boost Vaccine, 7 in 1 (Third dose), Sure Shot Duo pour on, Delta Fix pour on fly treatment. At assessment, steers were weighed 300-400kg and presented in forward to forward store condition exhibiting excellent confirmation, bone, temperament & overall softness. Full credit to the vendor for a careful, patient weaning which has produced settled, calm calves that are ready to continue forward into backgrounding or feeder programs.
