Age

17 - 20 Months

Age Breakup: October 2024 - January 2025 drop heifers. The heavier heifers in this age group have been sold into the domestic feeder market in the past two months. All inducted as milk teeth. It is likely these heifers will be the younger hfrs in this age group.

Weaning

Cattle weaned 15/06/2025

Hfrs were yard weaned for 10 days onto Oaten hay & Cotton seed. Educated to hay feeders & troughs.

Comment on Fat Score 1 Cattle

Heifers are in mostly store to forward store condition, all are strong and fit to load. No issues with transport are anticipated if normal trucking procedures are followed.

Vendor Bred

Lifetime Traceable

Breeding Comments

Yes

100% of cattle in this lot are Lifetime Traceable

Heifers are from a cow herd made up of Angus, Shorthorn & Santa Composite cows. Sired by Angus, The Grove Shorthorn and Gylanda Santa bulls, selected on carcase attributes & growth EBVs.

Grazing Conditions

Grazing dried off pasture with some fresh pick coming through from recent rain.

Assessor Comments	A line of vendor bred, mostly good to very good quality EU heifers. Yard weaned in June 2025, moved onto Oats post weaning last winter and have been grazing native pastures up until now. These heifers would normally be taken through and crop or pasture finished for the lighter end of the EU Grasslands slaughter market and the vendor is only selling due to the season. This is the lighter end of the heifers and had a LWR at assessment was 269kg - 319kg after being in the yards overnight on hay. Please note weight gain, this reflects the fact that the heifers have been chasing the green pick for the last 7 - 10 days. This is anticipated to continue so heifers will be fed cotton seed in the paddock up until delivery. With mostly medium to large frames & 4% small frame they suit to background to heavy domestic feeder weights and then finish for a range of high quality slaughter markets. Alternatively, the top 40% VG quality heifers could suit as future breeders. These composite heifers are from a cow herd made up of Angus, Shorthorn & Santa Composite cows. Sired by Angus, The Grove Shorthorn and Gylanda Santa bulls, selected on carcass attributes & growth EBVs. All heifers were preg tested by a vet at assessment, 62nd NDP. Property is located 12km South of Surat.
