Assessor Comments	Heifers present in fresh condition running in typical western Mulga country and will really bounce on good feed. Majority of heifers were purchased in from Warrawagine Stations in Western Australia as light weaners and have grown out well. Based on Munda & Valera Vale bloodlines. There is a small percentage of vendor bred and other purchased in heifers. Heifers have been scanned ND, with bulls taken out at assessment. Heifers have been on hand for 6 days, and drafted and preg tested prior to weighing so will fill up quickly.
