Comment on Fat Score 1 Cattle	Cattle are in good strong store condition and no travel issues are anticipated if normal industry procedures are followed.
-------------------------------	--

Vendor Bred	Yes
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	Merawah Poll Hereford Bulls over Merawah bloodline cows.

Grazing Conditions	Grazing greening Buffel grass paddocks with access to Oaten hay and Anipro liquid supplement. Returned to: A fresh paddock of dry Buffel grass with short green pick and access to Oaten hay, though no Anipro from assessment up until delivery.
--------------------	--

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
-------------------	---

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Health Treatments	Deloused	02/02/2026	Moximax Pour-On
Temperament	Quality Grades		Store Condition
	Very Good	67%	Store 100%
	Good	29%	
	Fair	4%	
Handled With	Yards		Crush
	Quiet: 117 head		Quiet: 112 head
	Slightly Stirry: 5 head		Slightly Stirry: 9 head
			Stirry: 1 head
Notable Traits	The steers were generally good to handle in the yards and when approached calmly worked and stood for the photos and videos. In the race and crush 9 were slightly agitated and did not settle on the weigh platform. One steer was highly agitated on the weigh platform and exited the crush swiftly.		
	Bikes , Horses		
	Traits		
	1 Head Healing Pink Eye		
Assessor Comments	5 Head Moderate Blue Eye x one eye		
	2 Head Slight Blue Eye x one eye		
	A line of vendor bred EU Accredited yard weaned Poll Hereford steers. They range from 184kg to 357kg at assessment with a lighter end below 180kg drafted out of the line. With a medium to large frame, they are suited to take onto feed for the domestic supermarket trade or carry through to export feeder weights. They are also grass fed market eligible and suit to grass finish for high quality MSA markets. They were assessed as 4% fair, 29% good and mostly (67%) very good quality with the fair quality just lacking a little muscling and frame. These steers have been grazing Buffel pasture with access to oaten hay, and since weaning have also had access to Anipro liquid supplement. No active pink eye was identified at assessment, though there were a handful of moderate and slight blue eyes (7) in addition to one healing PE. Please note, 1 EU domestic weight black baldy steer at the top of the weight range (357 kg) is available post-sale by negotiation. These 6-9 month old steers are showing good weight for age and are primed to move ahead quickly given access to good-quality feed.		
	Lawrence Sehmish-Lahey (Level 3 Accredited) Phone: 0473 546 957		
Delivery Period	15/06/2026 to 19/06/2026 (5 days)
