Comment on Fat Score 1 Cattle Any score 1's and are fit to travel any required distances.

Vendor Bred	Yes
Stock History	Bred out of a good herd of Raff and Hazeldean blood Angus cows.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	These all by Raff and Broadwater Angus bulls.
Grazing Conditions	Developed black Brigalow/Belah melon hole country that had no rain through the summer/autumn. 70mm received 10 days ago so a light germination of clover now. Been supplemented with Riverina Calf Grower Pellets & Riverina Backgrounder Select molasses. Returned to: Returning to a paddock with dry grass and a germination of clover.
Burr/Seed in Coat	A small amount of Noogoora burr in the odd tail brush and winter coat.
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments	Vaccinated	15/11/2025	5 in 1 (branding)	First Dose
	Vaccinated	08/04/2026	5 in 1 (weaning)	Second Dose
Chemical Residue	Clear - No known history.			
Vendor Comments	These are heifers that are surplus to future breeding requirements. A small number of replacement heifers have been retained.			
Joining Details	Not Station Mated			
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.			
Temperament	Yards	Crush	Paddock	
	Quiet: 63 head Slightly Stirry: 3 head	Quiet: 61 head Slightly Stirry: 5 head	Temperament not assessed in Paddock	
	Heifers that were good to handle in all areas of the yards. There were just the standard few that did resent being in the crush which is not unusual. They all behaved well when being photographed and videoed. Vendor did say they are very easy to muster using a buggy.			
Handled With	Bikes			
Notable Traits	Traits 1 Head Blue dot in eye (treated) 2 Head Slightly cloudy eye			
Assessor Comments	Buyers, a light 2-deck lot of EU ACCREDITED weaner heifers suitable to background up to domestic feedlot entry weights or take right through to a domestic grassfed slaughter heifer. Above all else they look to be very suitable to grow out and allow a restocker the opportunity to continue on in a breeding program. They are considered good to very good quality. They demonstrate adequate weight for age considering the seasonal conditions and demonstrate plenty of length and depth of barrel and femininity. These have presented in mainly store to forward condition. Whilst the season has been marginal for the past few months, they have responded very well to being supplemented with pellets and molasses and don't look to have had any growth setbacks with the dry weather being experienced. There are however 2 lighter weight heifers that have maybe not handled the dry quite as well however they are deemed capable of catching up. Anything that looked to have maybe suffered a bigger setback was discarded at assessment. These heifers considering we are now in the winter months and with rain on them look to be in good health, reasonably clear in the eyes and around the muzzle. Please see the photos of the eye that gives a good insight of what is involved, no sight issues evident. There is also a single deck load of steers available that can be purchased to fill a B-Double to make long distance freight more affordable.			
Assessor	Bob Jakins (Level 1 Accredited) Phone: 0419 788 366			
Delivery Period	15/06/2026 to 16/06/2026 (2 days)
