	The slightly stirry steers were unsettled in the race/crush & ran away from the crush when released but did settle once in the mob. Steers behaved very well for 1st time off the cow & handled through race & crush. Would expect to be good to handle at delivery after having some handling in the yards until delivery,

Notable Traits	Traits 1 Head Buffalo fly sores neck		
Assessor Comments	Buyers an opportunity to buy very good quality weaned steers that are ideal to put on oats & take through to heavy feeder weights, could also be grown out to yearling bullocks for a antibiotics / HGP free grass programme. These steers have great weight for age & showed great temperament for the first time being handled off the cow. Vendor has 28 heifers same sale.
