	Steers were very good to handle and work through the yards.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	Buyers, an opportunity presents itself to purchase a good quality line 37 weaned Angus & Brangus infused steers. These steers present in store condition and will offer plenty of compensatory weight gain once settling into their new environment due to having been fully weaned & handled. Steers show all attributes to make great future feeders or bullocks, and will excel on grass, crop, or grain. The group are very good to handle and would be easy to have around. This is a rare opportunity to grab a line of light weight flatback steers, with the bonus of being located right on the Warrego highway. Steers have performed very well for all past buyers, due to their store condition, quality genetics and health treatments. Please see photos and video for full satisfaction.
