	1 Head minor blue eye		
Assessor Comments	43 Wagyu F1 mixed sex weaners. Sired by Trent Bridge bulls these weaners present in a healthy store condition and will power away if given the right opportunity on good feed. These weaners are usually taken through to a heavy feedlot entry weight but due to seasonal conditions have been offered for sale much earlier making them ideal to be backgrounded and then taken through to feedlot and kill programs. All are out of good quality Angus and Angus x Shorthorn females that are part of a now self replacing angus cow herd with a strong focus on selecting bulls with high growth and IMF indexes.
