	Quiet: 30 head		Quiet: 28 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Generally good to very good to handle in the yards, race and crush. They are mostly very quiet and very good to handle. Two heifers were mildly agitated in the race and crush and exited quickly. They all settled once back in the mob and were very good to handle when taking the photos and videos.			
Handled With	Bikes			
Assessor Comments	A good to mostly very good quality line of vendor bred EU heifers. With medium to large frame they suit to take directly on feed or to background to the top end of domestic feeder weights and then crop, pasture or grain finish for a range of high quality slaughter markets. They are sired by very good quality Wirruna Poll Hfd bulls with a smaller number of Pipersleigh Poll Hfd bulls also used. Bulls have low to moderate birth weight with high growth and the vendors also focus on carcass attributes and target MSA Index > 62 for their slaughter cattle. They are unjoined and have been vet preg tested 100% NDP and the top 60% would suit to join as good quality future breeders. The cattle have been chasing green pick after recent rain and present in strong store condition but with minimal condition and will move ahead quickly on good feed.
