Assessor Comments	A good to mostly very good quality line of vendor bred steers. With medium to large frame they suit to background to the top end of export feeder weights. Alternatively they suit to take directly onto feed or crop and finish for a range of high quality slaughter markets. These steers are EU and Grassland accredited and are normally taken through to grass finished slaughter markets. They are sired by very good quality Wirruna Poll Hfd bulls with a smaller number of Pipersleigh Poll Hfd bulls also used. Bulls have low to moderate birth weight with high growth and the vendors also focus on carcass attributes and target MSA Index > 62 for their slaughter cattle. The cattle have been chasing green pick after recent rain and present in strong store condition but with minimal condition and will move ahead quickly on good feed.
