	Very good set of yards and heifers flowed through very well. Well handled, very odd heifer that wasn't as settled with extra pressure in the round yards. Overall very well handled quiet cattle.
Handled With	Bikes , Dogs , Horses , On foot
Assessor Comments	A good line of EU, USDA NOP & GAP Accredited Organic Angus X heifers. A good run of heifers, where all the hard work has been done, very well handled. Heifers have been PTE by a VET. Ideal to fatten for the organic / EU premiums or on grain. Majority of these heifers would be out of 1st calf heifers and dropped a month later than the main cow herd. Heifers are early maturing and will be small to medium frame style heifers. Majority of heifers have old irritation / fly rub marks around the eyes.
