| Assessor               | A line of 41very well bred, AA weaned steers, ready to move forward. These steers are docile and easy to work with, even when under pressure. The management of these calves is an absolute credit to the vendor. They were yard weaned for 5 days in late November 2025 on hay and supplements, with another 5 days in a small paddock. . They are bred from top tier Mandayen and Allendale AA Bulls, out of large framed AA cows. Absolutely no question about the quality of the breeding of these calves. Ideal steers to feed on. They are part of a complete drop of weaned calves, with a small tail drafted out of the bottom end. Please note the same Vendor has a line of 69 AA heifers on offer in this same sale. Everything is right about these steers for a feedlot operation, bur can also be backgrounded for a bit longer if required. |     |                                   |      |                                     |      |
