	Heifers are good to handle and created minimal fuss on assessment. As any large mob of cattle there are heifers that will be unsettled as individuals, they calm quickly when returned to the mob. Cattle are well educated and know how to walk.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	This is a quality line of replacement females. After 40 plus years of Lancefield and brahman week blood they are set to perform genetically. The vendor has agreed to offer clear of the dip at Sturt Plains (next door) and deliver to Cloncurry or any equivalent distance. There is another line of lighter heifers in this same sale and also 6 decks of PTIC females in the Eastern States sale. These females have all been mouthed for buyer confidence and spent 2 days prior to assessment walking into the yards. There will be plenty of compensatory gain in the cattle. If there are any further queries please give me a call.
