Comment on Fat Score 1 Cattle

The steers are light store to store condition & fit to travel, would recommend any travel over 500 km that they are spelled & fed. See videos. Fit to load guidelines will be followed.

Notable Traits	Traits 1 Head Blight scarring 3 Head Blue eye 2 Head Ringworm (neck, head & body)
Assessor Comments	Buyers these steers are all frame with a large amount of compensatory weight gain. They would suit going on oats & taken on to trade or heavy feeder weights. These steers were purchased to be taken on to heavy feeder weights but seasonal conditions has reduced feed available to take through winter. See photos for the steer with the worst blue eye. Vendor has another 40 heavier Angus steers same sale.
