Assessor Comments	Buyers these steers are all frame with a large amount of compensatory weight gain. They would suit going on oats & taken on to heavy feeder weights. The 1 Angus x steer has blue roan patch off side around the eye, see photo. The steers that have broken their 2 teeth 1 had both teeth coming up (see photo) the other had lost a milk tooth, 5 of the milk teeth steers were showing wear. Steers were purchased to grow out to heavy feeders steers but seasonal conditions has reduced feed available to take through winter. Vendor has another 37 lighter Angus steers same sale.
