	Heifers are very quiet and a pleasure to handle		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 2 Head Blue eye/old scarring		
Assessor Comments	An outstanding draft of 52 EU Angus heifers averaging 250kg at assessment. A very even line displaying excellent Angus type, femininity, softness and quality throughout. These heifers are out of ex-Stud Bridgewater Angus cows and by Landfall S1769, S1838 and Bridgewater S089, S030 sires, combining proven maternal genetics with strong growth and marbling traits. Weaned early May and had all the hard work been done and are ready to do. They are only being sold due to a surplus of requirements during these unforeseen seasonal conditions in the New England otherwise would be retained as breeders. Suitable for backgrounding or to retain as future breeding females, these heifers present an excellent opportunity to secure quality Angus genetics from the renowned Bridgewater Angus program. A genuine line of high performing Angus heifers with a bright future ahead.
