Steers were weighed 150-198kg at assessment with the lead draft of their brothers also on offer. Ideal longer term opportunity with plenty of frame and good temperament to work with. Bred from larger framed cows, they present evenly and in fresh store condition. Calves originally were going to be retained for grazing crops and into the spring but the onset of winter has brought them to the market. Please call for further information and view video to appreciate their temperament.
