Assessor Comments Top quality weaned Angus heifers from one of the better herds in this district. This is the top of the Marwarra Heifers that were to be retained as replacement breeders. Due to the deteriorating season on the eastern side of the ranges the decision has been made to sell hence no heifers have been retained in herd. They have all the attributes and breeding to make for front paddock cows alternatively they have the frame and conformation to perform on grain or grass. These heifers present in fresh condition and have had no set backs. This herd has undergone a heavy culling regime in the last few years and that shows through in the heifers. It is not often that a purchaser has the opportunity to secure a line of classed heifers from a 500 cow herd.
