Assessor Comments	Great opportunity to secure some excellent quality EU accredited Angus steers. These steers a great representation of the Breed. Vendors have been using Bongongo genetics for 25 plus years. Steers were weighed in a tight weight bracket from 400-457kg at assessment. These steers are well known with feedlots and local backgrounders for their doing ability. The BOYD steers tick all the boxes and come highly recommended by assessor. Please see vendors other line of 31 steers in same sale, opportunity to put 102 steers back together off the same place. Bred from one of the better Angus herds in the Tumut Region. Bovilis treated. Any questions please call myself.
