	As usual excellent cattle to handle for temperament and worked through the entire assessment process with ease. A very odd steer got slightly agitated on the weigh platform but were quick to settle once released and back with their group.

Assessor Comments	Annual Draft of the Delhi Downs Spring drop steers bred out of big roomy females with 30+ years of Glenruben Angus bloodlines behind them. Annually obtaining the lead selection of Glenruben Angus sire selection, these steers have a proven track record as noted performers obtaining big weights at a young age. Properly yard weaned these steers were a pleasure to handle throughout the assessment process as is the norm with the Delhi Downs cattle. This offering is a small lot of younger steers from the group and a handful of tail end steers were removed at assessment. Steers are up to date with their veterinary treatments and buyers note there is another lot of 78 heavier steers also being offered in this sale. Never Ever Accredited and/or PCAS Grass Declaration available at purchasers request.
